INTRODUCTION

0.1. Purpose of the book

0.2. The contents of the book

0.3. Key concepts and terminology

PART ONE. THEORETICAL CONSIDERATIONS

CHAPTER 1. Foreign language education in the European Union and visual impairment

1.1. Introduction

1.2. Legal and policy context

1.2.1. Special needs education

1.2.2. Education of the visually impaired

1.2.3. Language education of the visually impaired

1.3. The European Union initiatives

1.3.1. Pedagogy and Language Learning for Blind and Partially Sighted Adults in Europe

1.3.2. Eurochance

1.3.3. Listen and Touch

1.3.4. Accessible Language Learning for Visually Impaired People

1.3.5. Per Linguas Mundi ad Laborem

1.3.6. European Language Portfolio for the Blind and Visually Impaired

1.3.7. LangSEN Project

1.4. Summary

1.5. Commentary

CHAPTER 2. The visually impaired as language learners: Selected issues

2.1. Introduction

2.2. Learning theory

2.2.1. Visual impairment affect on learning

2.2.2. Role of vision

2.2.2.1. Cognitive development

2.2.2.2. Motor development

2.2.2.3. Social-emotional development

2.2.2.4. Language development

2.2.2.4.1. Input

2.2.2.4.2. Echolalia

2.2.2.4.3. Verbalism

2.2.3. Sensory compensation in learning

2.2.4. Neurological considerations

2.3. Insights from first language acquisition — implications for foreign language teaching

2.3.1. Phonological development

2.3.1.1. Sound perception

2.3.1.2. Sound production

2.3.2. Lexical development

2.3.2.1. Deictic and locational terms

2.3.2.2. Personal pronouns

2.3.2.3. Understanding concepts

2.3.2.4. Prototypical representations

2.3.2.5. Morphology

2.3.3. Syntax

2.3.4. Pragmatics

2.4. The visually impaired in foreign language classroom

2.4.1. Holistic education

2.4.2. Review of literature

2.4.2.1. Language programmes and teaching approaches

2.4.2.2. Language learning strategies

2.4.2.3. Cooperative learning

2.4.2.4. Instructional tactile materials

2.4.3. Correlates of foreign language achievement

2.4.3.1. Tailoring language education

2.4.3.1.1. Special didactic devices

2.4.3.1.2. Material adaptation

2.4.3.1.3. Individualised plans and curriculum

2.4.3.2. Language teachers

2.4.3.3. Affective factors

2.4.3.3.1. Self-esteem

2.4.3.3.2. Self-efficacy

2.4.3.3.3. Anxiety

2.4.3.3.4. Empathy

2.4.3.3.5. Motivation

2.4.3.3.6. Attribution and locus of control

2.4.3.3.7. Coping competence

2.4.3.3.8. Learner autonomy

2.5. Summary

2.6. Commentary

PART TWO. EMPIRICAL PART

CHAPTER 3. Research: Selected affective factors and FL attainment of visually impaired learners

3.1. Introduction

3.2. Rationale for the study

3.3. Methodological considerations

3.4. Pre-empirical stage

3.4.1. Research ethics

3.4.2. Demarcation of the research

3.4.3. Problem identification

3.5. Empirical stage

3.5.1. Statement of the problem

3.5.2. Research objectives

3.5.3. Research questions and hypotheses

3.5.4. Conceptual framework

3.5.5. Research design

3.5.5.1. Operationalisation of variables

3.5.5.2. Methodology

3.5.5.3. Procedure and materials

3.5.5.4. Subject screening procedure

3.5.5.5. Research participants

3.5.5.6. Setting

3.5.6. Pilot study

3.5.7. Data analysis, presentation and interpretation

3.5.7.1. Coping Competence Questionnaire results

3.5.7.2. Autonomy Scale results

3.5.7.3. Locus of control questionnaire results

3.5.7.4. Achievement test results

3.5.7.5. CCQ–AT correlation results

3.5.7.6. AS–AT correlation results

3.5.7.7. LOC–AT correlation results

3.5.7.8. Interview results
3.5.8. Conclusions
3.5.9. Research limitations
3.5.10. Psychotherapy-based FL Teaching Model — researcher's proposal
3.5.11. Research implications
3.5.11.1. Language teachers
3.5.11.2. Decision makers
3.5.11.3. Family
3.6. Further research
3.7. Summary
3.8. Commentary
